

Revolutionary deck system giving you superb performance

The BR 652/752 series of compact ride-on scrubber dryers from Nilfisk represents more than just the latest models. It represents a huge step forward in cleaning innovation. In fact, a new benchmark has been set that puts these magnificently designed and engineered units way ahead of the competition. Features include: A super low noise level, an ergonomic and compact design that allows these machines to clean just about anywhere. Then there is the Ecoflex™ green-cleaning system that controls the consumption of water, detergent and energy so effectively that real savings can be gained without compromising performance! Above all, a totally new and patented scrubbing deck concept. Everything can be done just moving the steering wheel; as the machine turns, so does the deck. Together with the new “intelligent” squeegee - which perfectly covers the scrubbing track without leaving traces - the Nilfisk concept delivers superb cleaning performance. This solution is so efficient that side skirts are no longer needed.

- New sliding deck concept; maximum comfort and performance, minimum effort and maintenance
- New squeegee concept; a stable and reliable squeegee for the best pick up performance Ecoflex™ system minimises the environmental impact without compromising performance
- New ergonomic steering wheel concept with all working functions fully integrated
- Patented automatic speed control that significantly increases operator safety
- Super compact design makes cleaning of restricted areas fast and easy
- Low noise mode makes daytime cleaning and cleaning of noise sensitive areas viable
